LIVE STOCK NEWS.

Items of Interest to Stockmen, Gathered from Reliable Sources.

Texas Stockman: A. B. Frank has purchased over 6,000 head of cattle for his new pasture on the Rio Grande.

Clifton Clarion: The San Simon Cattle company have placed about 7,000 head of animals in the San Simon valley during the past season.

Dodge City Stock Journal: The Day Land and Cattle company, in Texas, have leased 203,000 acres of land in Greer county, that state, for a range, paying six cents per acre.

New Mexico Stock Grower: Arizona shippers are complaining of the poor facilities furnished them for the shipment of cattle, and urge the railroad companies to take action at once to remedy the matter.

La Junta, Colorado, Tribune: The Prairie Cattle company, thus far this season, have shipped one thousand cars of cattle, which represents a good many cattle, and a good deal of money for the railroad.

Billings, Montana, Stock Gazette: The sale of 6,000 head of stock cattle has just been consummated at Miles City by Wyatt, Ross & Hawley to the Rea Cattle company, the price being \$142,500. The cattle will remain here, north of the Yellowstone river. The parties had been dickering for several weeks.

Exchange: In the Chicago market the receipts of cattle the past week were the heaviest of the season, aggregating 49,000 head, and the market for range cattle declined from day to day until it might reasonably be said that there was no market at all. Prices ranged from \$2.20 to \$3.75 for western stock.

New Mexican Stock Grower: Large numbers of Arizona cattle have this week passed through New Mexico on the way to Kansas City, where they are to be marketed. Nearly every shipment from that territory shows evidence of the use of high grade sires in the herds. Arizona cattlemen are progressive and practical.

Texas Stockman: A Pueblo, Colorado, special says: McMullen, a ranchman living thirty miles east of here, was arrested yesterday by a United States marshal on a contempt of court in failing to remove fences on government land. McMullen made a show of resisting arrest, and was shot in the leg by the marshal. It is alleged that McMullen has 30,000 acres illegally fenced.

Globe Stock Journal: The northern countries are now rolling into Chicago their 1,200 and 1,300 pound beef steers, while Texas proper are supplying the market with 800 to 950 pound dogs. Thus it may be observed, while Texas is the boss breeding country, the northwest is by a large majority the best beefing and maturing section in the United States for range beef. It takes a climate even to raise a beef steer.

La Junta, Colorado, Tribune: Cattlemen will find that they will be much better off without fences than with them, and they should obey the order for removal in the proper spirit. There will be no preference given anyone, and there will be less clashing than heretofore. It was a very selfish spirit that inaugurated the system, and only goes to show that there are a few people left who want the earth. It was the large syndicates that compelled the small holders to adopt the policy, but the order for removal compels them to take a place of equality with their less avaricious neighbors. All hail to President Cleveland.
